

SUCCESS STORY

At Revolution Office, we're committed to upgrading your copier/printer technology, improving service and significantly reducing costs...guaranteed! To show how it works, we're featuring the stories of a few recent clients.

LOWER COSTS, HIGHER POTENTIAL

See how Revolution Office saved this school \$155k and expanded their fleet's potential.

Head-Royce School was looking to improve upon the status quo of high costs for copier/printer technology, mediocre service, and aging equipment – and Revolution Office had just the right solution.

The team at Revolution Office crafted a money-saving plan to pay off existing leases, refresh the entire fleet, and automate toner replenishment.

Head-Royce now enjoys the simplicity of a single invoice and the security of detailed SLA's backed by service performance guarantees.

Taking on responsibility for Head-Royce's Papercut print control software allowed Revolution office to maximize the fleet's performance and offer better control over costs and reporting. **In the end, Head-Royce School saved \$155k while benefiting from the increased reliability of a 100% refreshed fleet.**

“ Revolution Office lowered our costs by \$155k, improved our service, and reduced the administrative burden of multiple contracts with multiple vendors... working with them has been a win-win-win. ”

– Jerry Mullaney, Chief Financial and Operating Officer
Head-Royce School
